CHILSON'S NEW COOKING STOVE.

Believing that great improvements could be made in the construction and workmanship of Cooking Stoves, and that such improvements would be appreciated by the public, and feeling convinced that a long practical experience in the manufacture of Stoves would enable the subscriber to be successful in the undertaking, he has devoted himself energetically for two years to this object; and, as a result, is now prepared to show, he is happy to say, the most important improvements ever made in Cooking Stoves in the United States. This statement is fully confirmed by the large number of Testimonials received from those who have used these Stoves the past season, and five minutes' examination of the Stove itself will further prove all that is claimed for it.
