BEVERLY BUSINESS DIRECTORY.

This enterprising and accessible town located on the picturesque "North Shore," incorporated in 1668, is 16 miles from Boston and a forty minutes ride on the eastern division of the Boston and Maine Railroad. It is very attractive either as a place of business or residence. The population by the census of 1890 is 10,700. The valuation is \$14,000,000 and the tax rate is low. It is connected with Salem and Boston by nearly forty trains a day, and with Salem, Danvers and other towns by well equipped street railways. The most important industry is the manufacture of women's and children's shoes, which is carried on to a very great extent. Many other important and successful manufacturing concerns are located here. The board of trade of this the largest town in Essex County is pursuing a very liberal and public spirited policy by the erection of buildings suitable for manufacturing purposes and by other means calculated to induce capitalists and mechanics to locate here and take advantage of the business facilities so abundantly presented.
