# BUSINESS DIRECTORY OF DANVERS.

This delightful town, formerly "Salem Village" was set off from Salem in 1752, and is now attractive as a residence or place for business. It has a population of about 7500, an abundant water supply, and its streets are well lighted by electric lights, the plant for which is owned by the town. It is four miles from Salem and eighteen miles from Boston, being connected with the former by street and steam railway lines, and with the latter by two distinct lines of steam railway, the eastern and western divisions of the B. & M. R. R. Its principal industries are the manufacture of shoes and bricks, and its well known iron works do a large and thriving business. Market gardening is also an extensive industry. It has excellent schools and churches, and a fine public library. Like many other towns in this vicinity it has excellent facilities for manufacturing purposes, and business firms desiring to locate here will find ample accommodations and a thrifty and enterprising people.

# MARBLEHEAD BUSINESS DIRECTORY.

MARBLEHEAD settled about 1629, incorporated May 2, 1649. Population as per census of 1890 is 8202. Distance from Boston, 18 miles, with which it is connected by the B. & M. R. R., Swampscott Branch, 7 to 11 trains daily, and to Salem, M'head Branch, 4 miles, 11 trains daily. Also connected with Lynn, Swampscott, Salem and all contiguous towns by Street Railway half hourly. Has one of the finest harbors on the coast, and is the yachting center of New England. Is celebrated for the manufacture of children's shoes. On account of the ease with which markets and trade centers can be reached, skilled labor procured and the delightful climate tempered by the sea-breezes in summer and ocean currents in winter, there are few places offering stronger inducements or better facilities for carrying on a manufacturing business than Marblehead.
