# BEVERLY BUSINESS DIRECTORY.

This enterprising and accessible city located on the picturesque "North Shore," incorporated as a town in 1668 and as a city in 1894, is 18 miles from Boston and a forty minutes ride on the eastern division of the Boston & Maine Railroad. It is very attractive either as a place of business or residence. The population is about 14,000. The valuation is \$14,172,500 and the tax rate is \$14.80. It is connected with Salem and Boston by nearly forty trains a day, and with Salem, Gloucester and adjoining towns by well equipped street railways. The most important industry is the manufacture of women's and children's shoes, which is carried on to a very great extent. Many other important and successful manufacturing concerns are located here. The board of trade is pursuing a very liberal and public spirited policy by the erection of buildings suitable for manufacturing purposes and by other means calculated to induce capitalists and mechanics to locate here and take advantage of the business facilities so abundantly presented.

**THOMAS' OIL-TROUGH TREE PROTECTOR.**

(PATENTED AUGUST 9, 1881.)

This Improved Protector effectually protects the trees against the CANKER WORM. Neatest, Cheapest, and most durable protector in the market.

1. They are made of Heavy Corrugated Zinc which prevents them from sagging when on the tree.
2. It contains oil enough for the season, and a perpendicular front to the pan prevents the oil from blowing out.
3. It will not girdle or injure the tree.
4. The oil troughs are easily cleansed and are protected from dirt and leaves.
5. It will prevent the codling and tussock moths, bark lice, curculio, caterpillars, etc.; from ascending the trees, and is so constructed as to be a perfect barrier against canker worms.

**PATENTED WATER JOINT.**

**REMEMBER** 1. It makes the meat juicy and  
tender. 2. It needs no basting.  
3. You can see if water is needed  
from the outside of the pan. 4. You can put water  
in from the outside. 5. Meat don't shrink up from  
cooking. 6. You retain the heat that you would  
lose in basting in the old way.

It is unsurpassed for baking bread, cakes, bis-  
cuits, etc. No heavy or dried up bread. No crusts.

For baking beans it is simply magical.

# BUSINESS DIRECTORY OF DANVERS

This delightful town, formerly "Salem village" was set off from Salem in 1752, and is now attractive as a residence or place for business. It has a population of 8,200, an abundant water supply, and its streets are well lighted by electric lights, the plant for which is owned by the town. It is four miles from Salem and eighteen miles from Boston, being connected with the former by street and steam railway lines, and with the latter by two distinct lines of steam railway, the eastern and western divisions of the B. & M. R. R. About twenty trains daily, each way, between Danvers and Boston. Nine railroad stations and five post offices. Its principal industries are the manufacture of leather, shoes and bricks. Market gardening is also an extensive industry. It has excellent schools and churches, and a fine public library. Like many other towns in this vicinity it has excellent facilities for manufacturing purposes, and business firms desiring to locate here will find ample accommodations and a thrifty and enterprising people. Rents and taxes moderate.
