BUSINESS DIRECTORY OF DANVERS.

This delightful town, formerly "Salem village," was set off from Salem in 1752, and is now attractive as a residence or place for business. It has a population of 8,200, an abundant water supply, and its streets are well lighted by electric lights, the plants for which are owned by the town. It is four miles from Salem and eighteen miles from Boston, being connected with the former by street and steam railway lines, and with the latter by two distinct lines of steam railway, the eastern and western divisions of the B. & M. R. R. About twenty trains daily, each way, between Danvers and Boston. Nine railroad stations and five post offices. Its principal industries are the manufacture of leather, shoes, bricks, boxes and neckties. Market gardening is also an extensive industry. It has excellent schools and churches, and a fine public library of 20,000 volumes. Like many other towns in this vicinity, it has excellent facilities for manufacturing purposes, and business firms desiring to locate here will find ample accommodations and a thrifty and enterprising people. Rents and taxes moderate.

SECOND ALARM—Same number of box repeated.

GENERAL ALARM.—4 blasts, repeated 3 times, calls entire department.

ALL OUT—2 blasts.

One stroke will be given daily at 11.45 A. M.

One stroke at any other time signifies nothing.

CALL OF FIRE OUT OF TOWN—5 blasts repeated 3 times.

NO SCHOOL SIGNALS—For Primary and Intermediate schools, 3 blasts at 8.15 or 11.15; for all schools 3 blasts at 7.30.

GENERAL INSTRUCTIONS.

The Board of Firewards recommend to all persons who may see this notice that they make all necessary inquiries to enable them, in case of need, to give an alarm, or direct others to do so. Time saved in this way may prevent a conflagration.

In giving an alarm, open door, pull hook down once, and let go. Remain at box until apparatus arrives.

School Committee.

W. G. Frost, chairman; A. P. Learoyd, secretary; Mrs. C. E. Whipple, Edward H. Niles, Dr. Henry F. Batchelder, Harry C. Adams.

BOX 380. DANVERS, MASS.

THE LEAVITT BARREL CLAMPS AND CAP !!

A NEW LABOR-SAVING INVENTION.

Patent Applied For.

THIS article one of the latest and most valuable inventions, is to be used in handling barrels filled with ashes and produce of all kinds. It can be instantly placed and fastened upon the barrel and quickly removed, thereby enabling one to handle the barrel as if it were securely headed.

It will be seen at once that the Clamp without the Cap, although selling at a less price, may be more valuable and be used for more purposes. Barrels filled with vegetables, such as cabbages, squashes, etc., which extend beyond the top of the barrel, can be instantly secured by placing over the top a piece of bagging or burlap, and then fastened by use of the clamp.

It can also be used for the purpose of mending or rehooping old barrels, and is the best device ever used for holding securely the cloth used over all kinds and sizes of milk mixers such as are used by milkmen and dairymen.
