ural History Collections of the Essex Institute (begun in 1834) received by the trustees as permanent deposits were placed therein. To these have been added many valuable collections especially in the Marine and Oriental departments.

The Museum is arranged for the rational amusement of the public and the education of the student. It is especially designed to aid the teachers of the county in connection with school work.

The collection in the public exhibition halls may be summarized as follows:

Entrance Corridor

Collection illustrating the whaling industry and the natural history of whales also special temporary exhibits of objects photographs etc.

Marine Room

Collection of portraits of prominent Salem merchants members and officers of the East India Marine Society together with many interesting relics connected with the early social character of that institution nautical instruments and objects associated with a sailor's life models illustrating marine architecture and pictures and rigged models of Salem merchant vessels. These are preserved as a special collection in a hall on the first floor and form an interesting memorial of the commercial history of Salem.

Hall of Natural History (upstairs)

A nearly complete collection of the animals and minerals and rocks of Essex County a collection of woods of the trees of Essex County and one of the prehistoric relics. A large collection of the dried plants of the county in cabinets in the lower rooms which may be consulted by students upon application at the office.

A synoptical collection illustrating the animal kingdom from the lowest to the highest forms arranged and labelled according to the text books in common use in schools and colleges.

A type collection of minerals illustrating the edition of Dana's Mineralogy used in schools and one of

fossils illustrating the historical geology of the earth from the oldest to the most recent formations.

Hall of Ethnology

A Collection arranged by countries of objects illustrating the every-day life dress and religious customs the implements of war and of domestic use and objects of art and the native races of Malay Archipelago Africa the Pacific Islands and North and South America. This collection was begun in 1799 by the East India Marine Society and has had an uninterrupted existence since that date.

The Weld Hall

The most recent addition to the museum the gift of the late Dr Charles G Weld was opened June 28 1907. This fire-proof building provides admirably arranged workrooms and offices on the lower floor and above a hall devoted to the collection of Oriental Ethnology Japan Yezo Korea China Siam and India.

Academy Hall in the addition erected in 1885 with a seating capacity of 350 is used for lectures of the museum and is rented for concerts lectures and readings.

The institution has conducted classes in botany mineralogy and zoology and has published memoirs and reports a pocket guide to the birds and mammals and special papers relating to the collections.

The average number of visitors to the Museum is about 70,000 annually.

The work of the institution is conducted and the museum maintained entirely from the income of the trust fund and the contributions of generous friends. The annual expenses have increased with the growth of the museum and the work and usefulness of the institution could always be greatly advanced by additions to its fund and income.

11 THE ROPES MEMORIAL was established under the wills of Mary Pickman Ropes (1843-1903) and Eliza Orne Ropes (1837-1907) for the preservation of the homestead owned and occupied by Judge Nathaniel Ropes (1726-1774) and his descendants for four generations and for the maintenance of botanical lectures and a garden for flowers with a desire to beautify the city and contribute to the pleasure and instruction of its citizens

The Mansion House (318 Essex) was built about 1719 and was purchased by Judge Nathaniel Ropes in 1768 Judge Ropes was the son of a previous Nathaniel whose grandfather George Ropes the founder of the family in America came from England about 1642 Judge Ropes' son the third Nathaniel was the next owner and from him the house descended to the fourth Nathaniel and his sister Sally Fiske (Ropes) Orne who occupied the mansion until her death in the 1876 Nathaniel Ropes (4th) lived in Cincinnati and was the father of Eliza and Mary Ropes the founders of the memorial who with their sister Sarah and brother the fifth Nathaniel owned and occupied the house after the death of Mrs

Orne until their respective deaths The house formerly stood directly upon the street but was moved back and remodelled by the Misses Ropes in 1894 The memorial is managed by a board of trustees appointed by the court and incorporated by a special act of the Massachusetts Legislature in February 1912 as the "Trustees of the Ropes Memorial"

The mansion house contains much interesting old furniture of the period of 1750 to 1790 and furniture portraits etc of 1815-1840 appropriately arranged in the parlor dining room and four chambers The entire contents of the house belonged to members of the Ropes family In the china room which was especially built for its large set of Nanking table china imported about 1815 and also a fine set of Russian glass of the same period One room is reserved as a relic room or museum where documents silhouettes wearing apparel embroideries etc are gathered and marked with descriptive labels Another room on the lower floor is used for the business meetings of the trustees and for the botanical lectures which are given annually under a special provision of the wills The estate is surrounded by a high brick wall on three sides with an open fence on Essex st A formal garden at the rear of the house is separated from the front lawns by a terrace and low wall and is planted with a large variety of shrubs and flowers

Athenaeum organized some three years earlier. The characters of the two institutions are in many respects similar the incorporated objects of both being the promotion of literature the arts and sciences. The Salem Athenaeum purchased the social and philosophical libraries the former organized in 1761 the latter in 1781. The Athenaeum rooms in Central Building Market (now Central) street were opened to the proprietors on Wednesday July 11 1810 with a good collection of books properly arranged and classified. In Apr 1815 the Library was removed to rooms in Essex place in 1825 to rooms over the Salem Bank in 1841 to Lawrence place in 1857 to Plummer Hall the first building of the Athenaeum situated at 134 Essex street and in 1907 to the new building situated at 339 Essex street likewise named Plummer Hall. The present number of volumes is about 26,000. The sum of \$30,000 for the purchasing of land and the erecting thereon a building was bequeathed by Miss Caroline Plummer daughter of Dr Joshua and Olive (Lyman) Plummer born Jan 13 1780 and died at Salem May 15 1854 to the proprietors of the Athenaeum. The Athenaeum is managed by trustees annually chosen by the stockholders each shareholder may take out books upon the payment of the annual assessment of five dollars. 15 THE SALEM FRATERNITY 11 Central was organized in 1869 to provide evening instruction and amusement for those who "being confined to their work during the day need recreation at the close of their labors".

A few year's experience showed that the greatest need was among the boys and young men. Thus began the work of the oldest "Boys Club" in the country. After renting various rooms a permanent and suitable "home" for the work was secured in 1899 in the "Old Bank Building" one of the two buildings in Salem designed by Bulfinch at 11 Central st. The attendance is about 70,000 by some 4,000 different boys every year. The entertainment

*Barrett
Everlastic
Roofings*

and Specialties

FOR over sixty years we have been making roofings and other materials for farm and home. Every article on our list, therefore, may be bought with absolute assurance that it will be found thoroughly practical and reliable in every way.

EVERLASTIC MULTI-SHINGLES—Four shingles in one, each strip being as easily laid as a single shingle of any other kind. Saves labor and nails. The surface is "slated" in red or green. These Everlastic Multi-Shingles give a double thickness all over the roof, with three thicknesses where the wear is most severe. Fire-resisting.

EVERLASTIC SLATE-SURFACED ROOFING—A really splendid roofing, beautiful and artistic when laid. Slate-surfaced, yet sold in rolls. Made from the same materials as Everlastic "Rubber" Roofing with a special wearing-surface of crushed-slate particles, either red or green. Makes a fire-resisting and very durable roof.

EVERLASTIC TYLIKE SHINGLES—Same material as the Multi-Shingles, in red or green. Cut in single shingles, 8 x 12 $\frac{3}{4}$ in. Laid like ordinary wooden shingles and provide a triple thickness all over the roof. Make a beautiful, fire-resisting roof that will give long service.

EVERLASTIC "RUBBER" ROOFING—The most widely used of all our roll roofings, protecting hundreds of thousands of buildings all over the world. Tough, pliable, water-proof, and low in price. Very easy and economical to lay as no skilled labor is required. Nails and cement packed in each roll.

ELASTIGUM—This wonderful water-proof cement has a hundred different uses. Especially useful for mending gutters, joints around chimneys, parapets, skylights, etc. It is easy to apply, is acid-proof, damp-proof, and it sticks. Can be used in wet weather.

BARRETT'S CARBOSOTA LIQUID CREOSOTE OIL—Is the most efficient wood-preservative on the market today. It combines in the highest degree ability to penetrate deeply into the wood, antiseptic action toward fungous growth and insects, and resistance to the action of water and air. Its use will cut your wood-preserving bills in half.

EVERJET ELASTIC PAINT—Everjet is a high-grade carbon paint for industrial use; has no equal for protecting metal of all kinds against corrosive action of acids, alkalis, fumes, vapors, etc. Being elastic, extremes of heat or cold do not affect it. Water-proof and fire-retarding. Gives a perfect coating unbroken by pinholes or blebs. Try it.
