POLK'S DANVERS

Directory of Householders, Occupants of
Office Buildings and Other
Business Places

INCLUDING

A Complete Street and Avenue Guide
1931

Copyright, 1931, by R. L. Polk & Co. of New England

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are listed separately. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

* preceding any number indicates property ownership.

† preceding any number indicates ownership of automobile.

Telephone numbers are opposite names.

Exchange is Danvers unless otherwise noted.
