Polk's Bankers Encyclopedia

MOST CONVENIENT AND COMPLETE BANK DIRECTORY

This bank directory of the world includes reference data of every-day practical importance no other bank directory offers.

It is the only bank directory which gives bank statements in detail, including items of capital, surplus, undivided profits, analyzed deposits, together with the usual asset items of loans and discounts, due from banks, cash and exchange and segregation of bonds. It also reports the quotation of bank stocks and dividend rates. Among other features it gives the clearing-house rules of all cities having such associations, the names of their officers, and the city officials. It reports the names and location of national bank examiners and state bank superintendents and examiners. It has a complete list of members of the Investment Bankers Association and principal stock exchange members, dealers in commercial paper as well as a selected list of general investment dealers.

The usual features such as laws regulating banking and banking practice, directors of banks, reliable attorneys, accessible banking towns, maps of the various States and Canada, are conveniently presented.

This publication is issued in March and September each year.

Price **\$15.00 per copy**
In Canada and Foreign Countries \$20.00

Subscribers to Polk's Bankers Encyclopedia can maintain an up-to-date bank directory by subscribing to

POLK'S BANK INFORMATION SERVICE

This consists of monthly bulletins in cumulative form covering new, merged and closed banks between issues of Polk's Bankers Encyclopedia.

PEQUOT SHEETS

YOU'LL BE PROUDER than ever to own Pequots, now! For every Pequot sheet is woven with a **double** tape selvage—two parallel strips of extra strength down each edge.

You'll like the smart appearance of this new finishing touch. You'll like the strength it gives where the strain is, and the extra wear it promises.

Since no sheets but Pequots have it, this double tape selvage is also a positive identification. (Years later it will tell you that these sheets which have worn so well, stayed so smooth and firm and white, are Pequots.)

There's another handy way to tell Pequots—the patented projecting tabs that show the width. These tabs show which sheet fits each width bed, save you time and trouble in bedmaking.

Notice that each Pequot bears a guarantee stating that the sheet not only meets but *exceeds* U. S. Government specifications for heavy muslins. This assurance is new, but Pequot's reputation for long wear, whiteness and smoothness is four generations old. There's only one grade of Pequot—always a good "buy."

TWO SERVICES

... and your Community

In this modern age electricity and gas play a prominent part in the development of a community. Whether it be for domestic, industrial or commercial purposes, these two services stand always ready — to act and to serve at the touch or turn of a switch.

The ease and simplicity of their usage has made us accept them "as matter of fact." This acceptance in itself is a testimonial to their high degree of efficiency.

Walk along any street, day or night, winter or summer, and you see just the outward signs of their existence. Then realize that, at this same time, in homes, stores and factories, these services are being utilized for even wider uses upon which our everyday existence is dependent.

ON EARTH

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
