Fine Printing

¶ The business-making value of all printing varies with its quality. It doesn't pay any business house to have its printing done by the lowest bidder. The best costs but very little more and its business-making value is multiplied many times.

¶ We have a complete and finely equipped plant and are so situated that we can manufacture the better grades of printed matter at a low price considering quality.

¶ Special editions, genealogies, law books, historical books, etc., receive careful attention.

¶ Appropriate printing for all social events.

¶ Commercial printing combining all of the business-making qualities.

BLUE FLAME OIL STOVES AT J. L. Lougee Co.'s

The "Trustees of the Peabody Academy of Science," organized in 1868, having received funds by gift in 1867 from George Peabody of London for the "Promotion of Science and Useful Knowledge in the County of Essex."

Under the instrument of trust East India Marine Hall (erected in 1824), was purchased and refitted, and the Museum of the East India Marine Society and the Natural History Collections of the Essex Institute received by the trustees as permanent deposits were placed therein. To this foundation have been added many valuable collections since received by the trustees. A new exhibition hall was added and opened in 1889.

The arrangement of the Museum is educational and not merely for the purpose of exhibiting curiosities. It is especially designed to aid the teachers of the county in connection with school work. Cards on many of the objects give lists of books in the Salem Public Library relating to the collections.

The collections in the public exhibition halls may be summarized as follows:—

I. A collection of the animals, minerals and rocks of Essex County. A collection of woods of the trees of Essex County and one of the prehistoric relics of the county. A large collection of the dried plants of the county, in cabinets, in the lower rooms may be consulted by students on application at the office.

II. A synoptical collection illustrating the animal kingdom, from the lowest to the highest forms, arranged and labeled according to the text books in common use in our schools and colleges.

III. A type collection of minerals illustrating the edition of Dana's Mineralogy, used in our schools, and one of fossils illustrating the historic geology of the earth. Also a collection of botanical specimens, and small collection of archaeological objects from North America and Europe.

IV. A collection of objects illustrating the dress, religious customs, implements of war and of domestic use, and objects of art of the native races of China, Japan, Siam, India, Korea, Yezo, Africa, the Pacific Islands, Malay regions, and Philippines, and North and South America, etc. in the new east hall. This collection originated in 1799 with the formation of the East India Marine Society, and has had an uninterrupted existence since that date. It was greatly increased in 1868 by the specimens received from the Essex Institute and large additions have since been made by the Academy trustees.

v. An historical collection of portraits of prominent Salem merchants, members and officers of the East India Marine Society, together with many interesting relics connected with the early social character of that institution, and models and pictures of Salem merchant vessels. These form an interesting memorial of the commercial history of Salem.

The academy has published two volumes of memoirs and annual reports; it has conducted classes in botany, mineralogy and zoology, and for several years held a summer school of biology.

The average number of visitors to the Museum is about 50,000 annually.

The large addition, built in 1885, for the purpose of increasing the Museum accommodations, has on the lower floor a fine lecture hall, known as Academy Hall. It has a seating capacity of 350, is centrally located, comfortably seated, well ventilated, and is in every respect a first class audience room. The hall is used for lectures by the academy, and is rented for concerts, lectures and readings.

Officers, George Augustus Peabody, President; S. Endicott Peabody, Vice-President; Abner C. Goodell, Secretary; George A. Vickery, Treasurer, who together with John Robinson, Elihu Thomson, Francis H. Lee, Francis H. Appleton, and Dudley L. Pickman, form the board of trustees; Edward S. Morse, Director; John H. Sears, curator of mineralogy, geology and botany, Lawrence W. Jenkins, curator of ethnology; John Robinson, keeper of the relics of the East India Marine Society; J. Russell Treadwell, janitor in charge of Academy Hall.

The museum officers are on the lower floor of E. I. M. Hall, rear rooms.

9. SALEM ATHENÆUM was incorporated in March, 1810. Its conception was suggested by the Boston Athenæum, organized some three years earlier. The characters of the two institutions are in many respects similar, the incorporated objects of both being the promotion of literature, the arts and sciences. The Salem Athenæum purchased the Social and Philosophical libraries. The former organized in 1761, the latter in 1781. The Athenæum rooms in Central building, Market (now Central) street, were opened to the proprietors on Wednesday, July 11, 1810, with a good collection of books, properly arranged and classified. In April, 1815, the library was removed to rooms in Essex place; in 1825, to rooms over the Salem Bank; in 1841 to Lawrence place, and in 1857 to Plummer Hall. The present number of volumes, about 24,500. Miss Caroline Plummer, daughter of Dr. Joshua and Olive (Lyman) Plummer, born Jan 13, 1780, and died at Salem, May 15, 1854, bequeathed to the proprietors of the Athenæum \$30,000, for the purchasing of land and the erecting thereon a building known as Plummer Hall, in which are deposited the libraries of the Salem Athenæum, Essex So. District Medical, Essex Agricultural Societies, and a portion of the library of the Essex Institute. The Athenæum is managed by trustees, annually chosen by the stockholders; each share holder may take out books upon the payment of the annual assessment of five dollars. Trustees, Richard Wheatland, Frederick P. Richardson, John Robinson, Henry A. Hale, William O. Chapman, Joseph N. Ashton, William H. Gove, Alden P. White, George R. Jewett; Henry A. 12. SALEM EAST INDIA MARINE SOCIETY. Founded in October, 1799. Incorporated in 1801. Membership restricted "to persons who have actually navigated the seas beyond the Cape of Good Hope or Cape Horn." Its chief objects: 1st, to assist the widows and children of deceased members who may need it, from the funds of the society; 2d, to collect such facts and observations as tend to the improvement and security of navigation; 3d, to form a museum of natural and artificial curiosities, particularly such as are to be found beyond the Cape of Good Hope and Cape Horn. The collections formed were first deposited in the building on the corner of Essex and Washington streets. In 1804 they were removed to the Salem Bank Building on the site of Downing's Block, and in 1825 to the East India Marine Hall, erected for the accommodation of this valuable collection. In 1867 the building was sold to the Trustees of the Peabody Academy of Science, and the museum was placed in the hands of the Academy as a permanent deposit. Although no longer conducting the Museum, or making nautical observations, the charitable objects of the society are fully carried out through the means of a fund of considerable amount in possession of the society. Meetings are held quarterly at E. I. Marine Hall. Officers elected annually on first Wednesday in January. President, Albert P. Goodhue; Secretary, Charles Beadle; Treasurer, J. Clifford Entwisle; Committee of Observation, Edward B. Trumbull, Walter H. Trumbull; Distributing Committee, J. Clifford Entwisle, Edward B. Trumbull, William F. Jelly.

13. THE SALEM FRATERNITY was organized in 1869 to provide evening instruction and amusement for those who "being confined to their work during the day need recreation at the close of their labors."

A few years' experience showed that the greatest need was among the boys and young men. Thus began the work of the oldest "Boy's Club" in the country. After renting various rooms a permanent and suitable "home" for the work was secured in 1899 in the "Old Bank Building," at 11 Central street. A part of the work for the year ending Oct. 1, was as follows:—The rooms were open (except holidays), from 7 to 9 o'clock, mornings from 8 to 10 o'clock

Ranges and Heaters at J. L. Lougee Co.'s

(except during the seven "camping out" weeks). The total attendance was 48,000 boys, 2500 different boys annually. The entertainment and instruction was largely provided by Volunteer Helpers.

The Indoor Work. The gymnasium and shower baths are open every day from 7 to 9 p. m. from Oct. 1 to Apr. 1; during the evening it is reserved for members of the gymnasium classes which are in charge of instructors. The boys pay 10 cents per month to attend these classes. Total attendance, 16,398.

Hand Craft Classes are maintained in Printing, Cobbling, Carpentering, Passe Partout, Venetian Iron Bending, Basket Making, Fret Sawing, Clay Modeling, Wood Burning, Wood Carving, from Fall to Spring. There is always a chance for foreign boys to learn English, even when the evening schools are not in session. Several Debating and Study Clubs are maintained.

A Reading Room and Library of 700 "Books for Boys" are maintained.

The Game Room is perhaps the most important of any department, for it is here that the personal influence of the Volunteer Helper touches the life of the boy in his play, and with lasting effect.

The Outdoor Work has consisted of Holiday Excursions, Baseball and outdoor games, and ten weeks of "Camping Out" during the summer, when 100 boys are given "a week in the country" at the permanent camp at Sawyer's Island, Rowley, Mass.

The "Stamp Savings Bank" is an important feature of the work. Results—over 100 accounts opened by the boys in the "Five Cent Savings Bank" in 18 months.

The officers are: President, John Robinson; Sec., George W. Mansfield; Treas., Stephen W. Phillips; Superintendent, Herbert C. Farwell.

15. SALEM PUBLIC LIBRARY. On the first of December, 1887, the heirs of Capt. John Bertram offered to the city his late residence on Essex street to be used for the purpose of establishing a Public Library. On the twenty-seventh of December, 1887, the city accepted the gift, and instructed its committee to petition the Legislature for authority to issue bonds to the amount of \$25,000 for the use of the library. The library was open to the public for the delivery of books July 8, 1889. There are now (1906) in the library, 50,000 volumes. By the provision of the deed of gift the management of the library is vested in a board of seven trustees, six selected for life by the City Council, and the Mayor of the city for the time being, the remaining member, *ex-officio*, and the chairman of the Board. The City Council elected the following named gentlemen as trustees for life: George R. Emmerton, James A. Emmerton, Nathaniel A. Horton, Thomas F. Hunt, Charles S. Osgood, George W.
