

# Beverly Directory.

BEVERLY  
Street and Household's Directory.

The street directory gives the location of each street, and shows what other streets or places run from or across it. The house numbers are given in left and right hand columns, with the names of heads of families and persons in business, in the order of location.

Houses without numbers are indicated by a —, and the dash is also used opposite connecting streets to indicate whether such streets begin or end on the left or right side.

ARTHUR J. GADBOIS,

**Beverly Business Directory**

This enterprising and accessible city, located on the picturesque "North Shore," incorporated as a town in 1668 and as a city in 1894, is 18 miles from Boston, and a forty minutes' ride on the eastern division of the Boston & Maine Railroad. It is very attractive, either as a place of business or residence. The population is about 14,000. It is connected with Salem and Boston by nearly forty trains a day, and with Salem, Gloucester and adjoining towns by well equipped street railways. The most important industry is the manufacture of women's and children's shoes, which is carried on to a very great extent. Many other important and successful manufacturing concerns are located here. The Board of Trade is pursuing a very liberal and public spirited policy by the erection of buildings suitable for manufacturing purposes, and by other means calculated to induce capitalists and mechanics to locate here and take advantage of the business facilities so abundantly presented.

**TWENTIETH CENTURY PLANT FOOD.**

"A Thing of Beauty is a Joy Forever."

PLANTS made strong, healthy and beautiful by the use of this Scientific Natural Vegetable Plant Food, which is not a stimulant of brief effect, but a true nourishing food for all forms of plant life, producing a steady and flourishing growth, and increasing the number and brilliancy of blooms on all blossoming plants when used according to directions. Clean and Odorless, does not cake and keeps the soil in the flower-pots loose and moist thereby giving the roots and stocks a chance to expand as nature intends they shall. This plant food is greatly superior to any and all chemical "plant foods" now on the market.
