

# **Beverly Directory**

(513)

Beverly is one of the oldest settlements in the commonwealth, being incorporated in 1668 and made a city in 1894. It has the largest valuation of any place of its size in the country, some \$44,000,000. It is really the gateway to the picturesque North Shore, the palatial summer homes of millionaires beginning soon after crossing the bridge from Salem. Its drives are known wherever autos are owned. It is 18 miles from Boston and has over 40 trains daily to and from Boston and Salem, besides through electric cars. Electric cars also run to Gloucester, Newburyport, Danvers and Wenham. Beverly center is given up to manufacturing, the United Shoe being the largest plant, ladies' and misses' shoes are manufactured in large number, besides wooden and paper boxes, and a variety of other articles. The city has 22,000 population and is making a steady growth. It has a live Board of Trade, an active Business Men's Association and a Building Association which has done much in the way of providing factories. In the past few years in which the population has doubled, Beverly has lost much of its conservatism and the new generation of workers are striving to make it pleasant for the people who come to town to do business or find a place of residence. Nature has done much for Beverly in the way of an ocean front of many miles, deeply wooded, which is the chief charm. It has a modern lighting plant and was the first city in the state to put in a "white way" street of strong electric lights every 100 feet. In spite of its many municipal improvements, it is enabled by its large valuation to reduce its tax rate for 1914 nearly \$2, something that no other city can boast of. Beverly never granted a liquor license; it has a large number of churches, Y. M. C. A., playgrounds in every ward, many modern schoolhouses, one of the finest athletic fields in the state, three theatres, a handsome public library, Federal building, fire department with auto steamer and chemical, and in fact everything to make a place desirable to live in.

There is one business opportunity not yet taken advantage of: Beverly needs a large hotel on the shore front. This would be worth considering by any person interested in this line.

## Street and Householders' Directory,

The street directory gives the location of each street and shows what other streets or places run from or across it. The house numbers are given in the left and right hand columns, with the names of heads of families and persons in business, in the order of location.

Houses without numbers are indicated by a — and the dash is also used opposite connecting streets to indicate whether such streets begin or end on the left or right side.
