ALBERT G. ALLEN
Bank Building, Danvers.

Business Directory of Danvers.

This delightful town, formerly "Salem Village," was set off from Salem in 1752, and is now attractive as a residence or place of business. It has a population of 8600, an abundant water supply and its streets are well lighted by electric lights, the plants for which are owned by the town. It is four miles from Salem and eighteen miles from Boston, being connected with the former by street and steam railway lines, and with the latter by two distinct lines of steam railway, the eastern and western division of the B. & M. R. R. About twenty trains daily, each way, between Danvers and Boston. There are nine railroad stations. Its principal industries are the manufacture of leather, shoes, bricks and boxes. Market gardening is also an extensive industry. It has excellent schools and churches, and a fine public library of 21,000 volumes. Like many other towns in this vicinity, it has excellent facilities for manufacturing purposes, and business firms desiring to locate here will find ample accommodations and a thrifty and enterprising people. Rents and taxes moderate.
