# CHILSON'S

PATENT ELEVATED

# DOUBLE OVEN COOKING RANGE.

This very superior Range, now in such general use, needs only to be seen to be appreciated for the great improvements realized in this invention over any other plan of Range in the United States. It is entirely new in principle, having five claims patented for improvements not found in any other Range. Its unparalleled economy in the consumption of fuel; its quick and even-baking ovens; its patent self-regulating flues around the ovens (without the usual vexatious complication of dampers found in the common Ranges); its cast-iron flue-plates around the oven, preventing loss of heat in the chimney; its superior, fine, heavy castings, and general beauty of design, and conveniences, cannot fail to commend themselves to all using Ranges.

Sizes in variety, for dwellings, hotels, &c., with or without Waterbacks, for Bath-Boilers, and other washing purposes; also, HOT-AIR FIXTURES, for heating additional rooms, when desired.

No housekeeper will long use any other plan of Cooking Range, after an examination of this.

#### CHILSON'S NEW PARLOR STOVE,

For Parlors, Chambers, Offices, Stores, &c. This Stove keeps fire day and night, and warms the floor for a great distance around it. It has a nice arrangement for ventilating the room. An Oven and Boiler attached, when desired, for Diningrooms. All are invited to examine this invention. For sale, Wholesale and Retail, at the Subscriber's Store,

Nos. 99 & 101 BLACKSTONE ST., BOSTON, Or at his Foundry, in Mansfield, Mass.

GARDNER CHILSON.

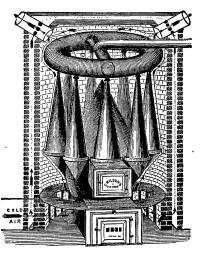

# CHILSON'S

PATENT

# CONE FURNACES.

Patented in the United States, England, and France.

A GOLD MEDAL was awarded to this Furnace at a recent Fair of the Massachusetts Charitable Mechanic Association, and the only gold medal ever awarded to any Furnace in Massachusetts.

The extensive use of this superior Furnace in the United States has acquired for it a reputation too well and favorably known to need more at this time than to call the special attention of those in want of the best possible means of warming dwellings, public buildings, &c., with pure, fresh, healthful heat (free from that scorching, dry, red-hot-iron heat and coal gas so common to hot-air furnaces), to an examination of this superior invention, which represents a cluster of Oones or tapering Radiators, over a broad, flaring, shallow fire-pot. These cones, being large at the base and small at the top, secure the great and important object of retaining and holding the smoke and gases back, in contact with the burning fuel,—thus thoroughly consuming the gases, while their heat is compressed up into the cones, and made to impinge against and radiate from the tapering surfaces,—thereby securing twice the heat from a given amount of call than can be obtained from any other plan known to man. This Furnace is very simple in its construction, and easily managed, and much less liable to need repairs than any other kind of furnace in use.

Also, Five Sizes of **Portable Furnaces**, on the same principle. The subscriber would call the special attention of those in want of Portable Furnaces to this invention, which cannot fail of giving perfect satisfaction.

Chilson's New Cooking Stove will show advantages which all must admit to be the greatest improvements yet made for a strictly first-class Stove. Sizes adapted for Dwellings, Hotels, &c., with or without Water-Backs, Extension-Tops, and Hot-Closets.

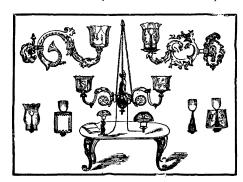

For Sale, Wholesale and Retail, at the Subscriber's Store,

99 & 101 BLACKSTONE STREET, BOSTON; or at his foundry, mansfield, mass. GARDNER CHILSON. Gas and Steam Pipes and Gas Fixtures.

#### George B. Foster's Carcel Gas Burner,

(Wood's Patent), the best and most economical gas burner in existence.

- SOLE AGENT FOR -

#### W. F. SHAW'S PATENT GAS STOVES,

For heating rooms of every description and size,—parlors, bath-rooms, sleeping-rooms, extension-rooms, where there are no chimneys, &c., &c. Halls, bedrooms, bath-rooms, and all small rooms heated by the gas drawn from the common bracket, at a less expense than by the ordinary method. The only true principle whereby all unpleasant and injurious odors are avoided. Warranted by far superior to any other invention for cooking or heating by gas ever offered to the public. Patented by the inventor, William F. Shaw, in America, England, and France.

# MAYNARD & NOYES' WRITING IN E.

MANUFACTURE ESTABLISHED 1816.

REGISTRY OF DEEDS' OFFICE, BOSTON, Jan. 10, 1859.

Messrs. Maynard & Noyes: Gentlemen, —I am glad that longer use of your Writing-Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, and my oldest records are as legible and black as when first written. This rare quality for permanence renders it invaluable for State and County Records, and all mercantile purposes where it is important that the writing should remain legible and unchanged in color by the lapse of time.

HENRY ALLINE, Register of Deeds.

#### MAYNARD & NOYES' COPYING INK.

This Ink yields a copy as distinct and perfect as the original. It also combines all the properties of our Writing-Ink, for which it can be substituted.

#### MAYNARD & NOYES' CARMINE INK.

This article is a beautiful red or crimson color, and surpassingly brilliant and rich. It is free from sediment, and will not mould, fade, or turn dark by exposure to the air.

The above popular Inks, together with Blue, Red, Indelible, and Stencil Ink, Chemical Writing-Fluid, Ink-Powder, &c., are for Sale by the Manufacturers,

I VERY respectfully take this method of informing the citizens of Salem, that, having purchased a

#### **BUTTON-HOLE** MACHINE

of the UNION BUTTON-HOLE MACHINE CO., and secured the services of an experienced operator, who will devote her whole attention to this branch of business, I am ready to receive and make all the BUTTON-HOLES in garments that the citizens will send to me, at the low price of three cents per Button-Hole.

This is the only Machine sewing a Button-Hole with the same stitch as hand work; introducing the "bar" or cord so "ssential to make firm and substantial work, in precisely the same manner as always found necessary in Button-Holes made by hand.

The stitch is formed with two threads instead of one, thereby imparting double strength and durability over hand work; at the same time the materials may be closely matched if desired by two shades or colors of silk.

Button-Hole Machines heretofore invented have failed from the want of some of the important features introduced in this Machine, and they are therefore found impracticable. I have been to considerable expense in getting this machine, and, by giving particular attention to the work sent, loope to attent the confidence and patronage of a liberal public, promising that their orders shall be promptly attent to the strength of the promptly attent of the promptly attention to call at rear of the promptly attent of the promptly attention to call at rear of the promptly attent of the promptly attention to call at rear of the promptly attention to the ladies and gentlemen who would like to see the Machine in operation to call at rear of

XFAll advertisements intended for this paper must be marked on the margin of the copy the number of insertions desired, otherwise they will be published till ordered out, and charged accordingly.

 $*_*$ \* No paper will be discontinued until all arrearages are paid, except at the option of the publishers; and any person wishing his paper discontinued must give notice thereof at the expiration of the term, whether previous notice has been given or not.

#### BOOK, JOB, AND FANCY

## PRINTING

EXECUTED AT THE OFFICE OF THE

## SALEM GAZETTE, AND ESSEX-COUNTY MERCURY,

In the best style, and on favorable terms.

## The Salem Gazette,

Established Weekly, 1768; Semi-Weekly, 1796,

Is printed on TUESDAY and FRIDAY mornings, at \$3.50 per year when paid in advance — \$4 when not in advance. The length of time which it has been before the public, and the extensive circulation it has obtained for the larger part of a century, render it unnecessary here to enter into a formal exposition of its character. The intention is that it shall always contain the most important foreign and domestic intelligence, political, moral, and literary; original communications upon all subjects connected with the public welfare; a full and correct shipping list; business advertisements; and, in short, everything that is usually found and expected in a Family Newspaper.

The large country circulation of the Gazette (including the Mercury, in which all new advertisements of the Gazette are published) renders it particularly valuable as a medium for the publication of Probate advertisements, sales of Real Estate, and other notices of interest to the farming population.

## The Gssex County Mercury,

OR WEEKLY SALEM GAZETTE,

ESTABLISHED A.D. 1832,

Is made up from the reading matter of the Salem Gazette, and is one of the largest and cheapest papers in New England. The subscription price is \$2.00 a year, when paid in advance. The quantity of reading afforded is much greater than is usually found in a Newspaper; and, as it circulates extensively in all parts of the County of Essex, particular pains are taken to present all the local matters of the County. The Mercury is published every Wednesday morning; the price, when not paid in advance, is \$2.50 per year, payable semi-annually.

No. 199 ESSEX STREET.

#### Low Prices as any Office in the City,

Posters, Shop-Bills, Programmes, Catalogues, Bill-Heads, Blanks, Books and Pamphlets, Business, Visiting, Ticket, and Check Cards, Plain or Fancy Labels, &c.

## THE SALEM OBSERVER,

Is published at the above office every Saturday morning. It is the design of the Publisher to give a condensed summary of the latest intelligence, and such local matters of importance as will be found interesting to the public. Its large and increasing circulation, both in this city and country, renders it a most desirable medium for Advertising.

TERMS, \$2.00 PER ANNUM, IN ADVANCE.
