look better and last longer than new shingles without  
the slate, for one-third the cost of shingling. For tin  
and iron it has no equal, as it expands to heat, contracts  
to cold, and NEVER CRACKS or scales. Roofs covered  
with Tar Sheathing Felt, can be made water-tight at a  
small expense. It is easily applied, and its color at  
first is a dark purple, but in about a month after, it  
changes to a light uniform slate color, and is, to all in-  
tents and purposes, Slate. It is also Fire-Proof against  
cinders and sparks.

# THE ARLINGTON COOKING STOVE.

CHILSON'S NEW STOVE.— JUST COMPLETED.

Five minutes' examination of this Stove will prove it to be the CHEAPEST, NEATEST, MOST CONVENIENT and DURABLE, and in EVERY RESPECT the BEST COOKING STOVE ever made. WITHOUT EXCEPTION, the WATER FRONT FIXTURES for heating water for BATH BOILERS, etc., are the MOST PERFECT EVER INVENTED. Do NOT FAIL to examine this Stove before purchasing elsewhere.

A VARIETY OF SIZES, with or without Extension Tops, Reservoirs, Hot Closets, etc., etc., for HARD or SOFT COAL, or WOOD, kept constantly on hand.

## CHILSON'S PATENT Elevated, Double-Oven COOKING RANGE

HAS BEEN REMODELLED AND GREATLY IMPROVED.

This celebrated Range is universally acknowledged to be the most complete and perfect Kitchen Range in America.

No housekeeper, who would enjoy the comforts of a really perfect Kitchen Range, should fail to examine this before purchasing. Sizes adapted for dwellings, hotels, etc., with or without water-backs, hot-closets, and hot-air fixtures for heating additional rooms.

It excels all others, —

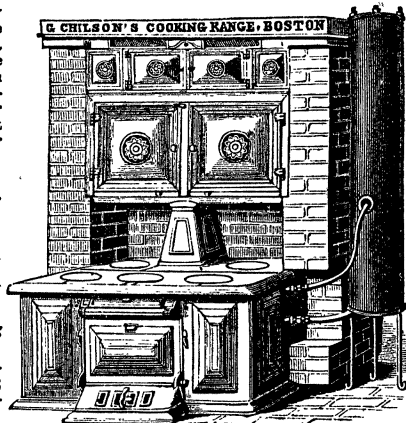

1st—In its entirely new principle for circulating the heat around either oven separately, or both ovens, as desired.

2d—In its heavy fine castings and thorough workmanship.

3d—In its GREAT ECONOMY IN FUEL.

4th—In its quick and even baking ovens.

5th—In its self-regulating flues, without the usual complication of dampers; and finally, in its general beauty of design, durability, etc.

Also, Parlor, Office, and Store Stoves, Patent Dampers, Registers, Ventilators, Etc.

Warerooms, 99 and 101 Blackstone St., BOSTON.

Foundry at Mansfield, Mass.

## THE ARLINGTON PORTABLE RANGE.

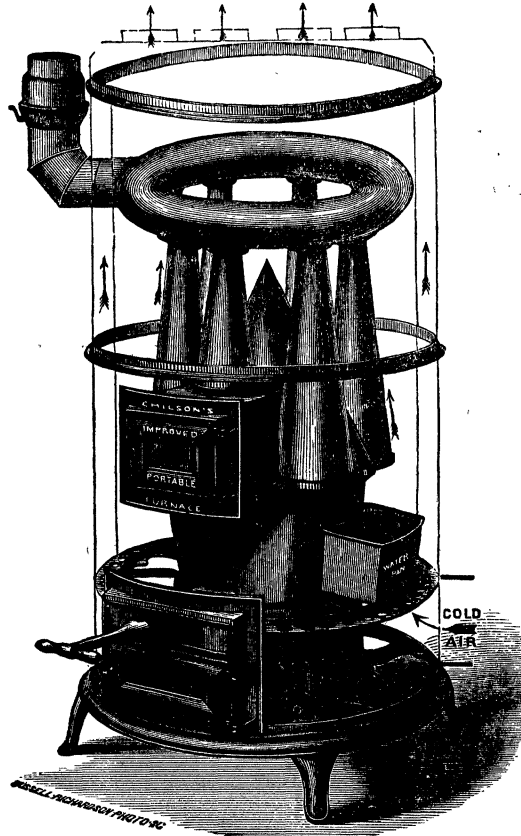

### CHILSON'S New Range, 1872.

The first sight of this new and splendid Portable Range will convince all that its equal has never been seen, — in its Beautiful Design, Superior Fine Heavy Castings, with and without Hot Closets, and Reservoirs; also, Hot Water Fronts for Bath Boilers, Sifting Grates, Ash Pans, etc.

Housekeepers will be pleased with this PORTABLE RANGE.

### CHILSON'S CELEBRATED AND UNRIVALLED BRICK AND PORTABLE FURNACES.

#### Ten Sizes.

*Patented in the United States, England and France.*

The high reputation this furnace has acquired in the use of more than twenty thousand, places it pre-eminently ahead of any other known plan for thoroughly and economically warming buildings. The cuts of the brick or portable furnaces will show at a glance to any intelligent mind the wonderful heating powers, a cluster of tapering Radiators standing directly over the fire, must have over any other form of heating surface, and which is so constructed as to be perfectly gas and smoke tight. Any one in want of a furnace should not fail of thoroughly examining this furnace.

Special attention given to putting up Furnaces and Ranges, and the ventilation of buildings in every part of the country.

Nothing but strictly first-class work is manufactured by me.

Parlor, Office, and Store Stoves, Patent Dampers, Registers, Ventilators, etc.

## THE SALEM GAZETTE,

*Established Weekly, 1768; Semi-Weekly, 1796,*

Is printed on TUESDAY and FRIDAY mornings, at \$3.50 per year when paid in advance; \$4.00 when not in advance. The length of time which it has been before the public, and the extensive circulation it has obtained for more than a century, render it unnecessary here to enter into a formal exposition of its character. The intention is that it shall always contain the most important foreign and domestic intelligence, political, moral, and literary; original communications upon all subjects connected with the public welfare; a full and correct shipping list; business advertisements; and, in short, everything that is usually found and expected in a family newspaper.

The large country circulation of "The Gazette" (including "The Mercury," in which all new advertisements of "The Gazette" are published), renders it particularly valuable as a medium for the publication of Probate advertisements, sales of Real Estate, and other notices of interest to the farming population. Every new advertisement, with its insertion in the weekly edition, is placed before three thousand subscribers in Salem and the neighboring towns.

## THE ESSEX COUNTY MERCURY,

Or, Weekly Salem Gazette,

*ESTABLISHED A. D. 1832,*

Is made up from the reading matter of "The Salem Gazette," and is one of the cheapest and most popular papers in New-England. The subscription price is \$2.00 a year, when paid in advance. The quantity of reading afforded is much greater than is usually found in a newspaper; and, as it circulates extensively in all parts of the County of Essex, particular pains are taken to present all the local matters of the County. "The Mercury" is published every Wednesday morning; the subscription price, when not paid actually in advance, is \$2.50 per year. For strictly advance payment we deduct 50 cents, leaving the price \$2.00 per year.

# DR. E. D. SPEAR,

SO MUCH CELEBRATED FOR HIS

## Remarkable Cures.

Office, 713 Washington Street,  
BOSTON.

SOME patients, when they first call at Dr. SPEAR's office, have expected to find a full-blooded Indian, instead of the pure New-Englander that he is. This is not to be wondered at, as the term "The Old Indian Doctor" has been applied to him for many years, and grew out of his mode of treatment, based upon the Indian mode of using roots, herbs, and barks of trees, though with all the improvements which the light of civilization and science can throw upon it. Dr. SPEAR is the first educated physician to adopt and refine crude Indian remedies so as to make them available among civilized people. His great object in the treatment of diseases, and what distinguishes his practice from others, is the assistance of Nature by Nature's own remedies,—remedies amply provided by a beneficent Providence in the herbs of the field and the trees of the forest, seeking light and knowledge from every source possible, and acting in harmony with Nature's laws. But such has been the abuse of the name "Indian Doctor," "Indian Physician," &c., of its use by unprincipled, uneducated "doctors," that it is the wish of the doctor to be known hereafter as Dr. E. D. SPEAR, so much celebrated for his remarkable cures.

The testimony of many persons who seemed fit tenants for the grave, and who now, happily, enjoy the best of health, is proof sufficient of the great efficacy of the medicines and treatment of Dr. E. D. SPEAR, so much celebrated for his remarkable cures. Success has attended the efforts of Dr. SPEAR in a wonderful degree; and astonishing cures are related, the proofs of which are now living, and will be only too happy to testify in behalf of the doctor's skilful treatment. "Consumption's ghastly form" has brought terror to many a stout heart, and defied the skill of many an excellent physician. That Dr. SPEAR has restored to perfect health many suffering from this obstinate disease is an undoubted fact, and the sceptical should be convinced by investigation.—*Watchman and Reflector.*

Dr. SPEAR may be consulted upon ALL diseases free of charge.

DR. FRANZ LISZT says,—

"I consider the Chickering Piano SUPERIOR to any made in Europe or America, and am fully convinced that they were justly entitled to the FIRST PRIZE."

## CHICKERING & SONS' MAMMOTH MANUFACTORY

MANUFACTURERS AND IMPORTERS OF

## Surgical & Dental INSTRUMENTS,

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:—

### TRUSSES.

A large assortment of best patterns from which to select, to meet the requirements of each case. If convenient, person requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel. **N. B.**—Ladies attended by those of their own sex.

### ELASTIC HOSE,

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity, the stout silk being usually the most satisfactory. The sizes are full length (of leg), three quarters, half or knee hose, knee caps, and anklets. Unusual sizes made to order. Also,

**Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-Legs, Club-Feet, Etc. Also Crutches of various and most improved kinds; Syringes, Rubber Urinals, to wear on the person day or night, for Males and Females; Galvanic Batteries, Hearing Trumpets, Auricles and Conversation Tubes for the Deaf,**

Together with many other articles for the use of the SICK and INVALIDS. Also, the largest and best assortment of

### Atomizers and Nasal Douche,

To be found in the United States. A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics Association, as will be seen from the following report, signed by a leading New England Surgeon and Physician:—

"1503. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers.

"The Committee have no hesitation in awarding for this superb exhibition the highest premium. \* \* \* The various other instruments for inhalation of atomized liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture. GOLD MEDAL. (Signed), GILMAN KIMBALL, M. D., Chairman."
