The work will be Alphabetically arranged, and so classified that the name of any person can easily be found, whatever may be his occupation, or wherever his location. This volume will also contain a FULL and COMPLETE LIST of the

Banks, Savings Banks, Insurance, Manufacturing, Gas-Light, and other Incorporated Companies, Post-Offices and Postmasters, Newspapers, Colleges, Academies, Expresses, Railroads, Population of each City and Town, etc.,

Together with other Useful Information often required in the COUNTING-ROOM.

With each County separately Colored, and representing a part of all the adjoining States, prepared expressly for this publication, measuring about 16 x 22 inches, showing plainly all the CITIES, TOWNS, VILLAGES, RAILROADS, STREAMS, LAKES, etc.

THUS IT WILL BE SEEN THAT THE

It will form a large octavo volume of about 1600 pages, handsomely printed on fine paper, and strongly bound.

Notwithstanding the constantly increasing size of the work, the price will remain as heretofore,

SIX DOLLARS.

A work of such magnitude and general utility, and one so much needed by all classes, must command a ready and extensive sale, not only within the limits of NEW-ENGLAND, but throughout the entire COUNTRY. Those who wish an extended account of their business given, will have an opportunity afforded them in the **Advertising Department**, at prices ranging from *Thirteen Dollars* upwards, according to space and location. [ESTABLISHED 1768.]

Is Published on Tuesday and Friday Mornings,

For \$3.50 Per Annum, paid in Advance,

Or \$4.00 if paid Semi-Annually NOT in Advance.

It will be found to present a faithful transcript of the Local and County news, good general reading for the entertainment of the family, original correspondence from distant points, editorials upon passing topics, and a good statement of the current news of the day, domestic and foreign.

THE ESSEX COUNTY MERCURY

Is made up from the reading matter of the Salem Gazette, and published as a weekly edition of the Gazette, for \$2.00 per annum in advance, or \$2.50 otherwise. It circulates both in Salem and in the country towns of Essex County (for the most part in the country), and is regularly and extensively read and known throughout the county. Being made up from the same reading matter, the Mercury partakes of the same general characteristics as the Salem Gazette.

TO ADVERTISERS.

The SALEM GAZETTE is circulated mainly in Salem; the ESSEX COUNTY MERCURY principally out of Salem, in the County of Essex. Every new advertisement in the Gazette has an insertion also in the Mercury, without additional charge. There is not a city or town in Essex County, where the Gazette or Mercury is not taken. In Beverly, Marblehead, Peabody, Danvers, Middleton, Lynnfield, Wenham, Hamilton, Ipswich, Rowley, Topsfield, Georgetown, Boxford, Essex, Manchester, and even in several of the towns more remote from Salem, the circulation is large. Every new advertisement is placed before about 3,500 subscribers. There is scarcely a month through the year when the circulation is not at times in excess of this. As both the Gazette and Mercury are largely sent into distinct families, and are largely *exchanged* with other families in country neighborhoods, we presume it is a fair estimate to say that these papers have full *twenty thousand distinct readers* every week.

MANUFACTURERS AND IMPORTERS OF

Surgical & Dental INSTRUMENTS,

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices a great variety of the following articles, suited to the wants of the general public:

TRUSSES,

A large assortment of best patterns from which to select, to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel. **N.B.**—Ladies attended by those of their own sex.

ELASTIC HOSE,

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity; the stout silk being usually the most satisfactory. The sizes are full length (of leg), three quarters, half or knee hose, knee caps, and anklets. Unusual sizes made to order. Also,

Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-Legs, Club-Foot, Etc.

Also, Crutches of various and most improved kinds; Syringes, Rubber Urinals, to wear on the person day or night, for Males and Females; Galvanic Batteries, Hearing Trumpets, Auricles, and Conversation Tubes for the Deaf.

Together with many other articles for the use of the SICK and INVALIDS. Also the largest and best assortment of

Atomizers and Nasal Douche,

To be found in the United States. A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics Association, as will be seen from the following report, signed by a leading New England Surgeon and Physician:

"1503. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers.

"The Committee have no hesitation in awarding for this superb exhibition the highest premium. * * * The various other instruments for inhalation of atomized liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture. GOLD MEDAL. (Signed), GILMAN KIMBALL, M.D., Chairman."

EMERSON PIANO-FORTES.

THE EMERSON PIANO COMPANY

Are desirous that their instruments shall be subjected to the strictest tests. By care in selecting materials, and by rigorously insisting upon perfect work, they produce instruments that are **ABSOLUTELY UNSURPASSED.** The mechanism of the Piano Forte is simple and easily understood. There is no secret or mystery about it, as some shrewd advertisers would have the public believe. The solidity of the frame and case, the well-chosen, well-seasoned, and well-wrought wood of the sounding-board, the perfection of the hammers, dampers, and strings; the unyielding firmness of the pins, the scientific voicing and tuning—these are the elements necessary to form **Perfect and Satisfactory Tones.**

MORE THAN TWENTY-THREE THOUSAND
of these Pianos have been made and sold, and the **STANDARD** of **EXCELLENCE** was never so high as now.

SUPERIOR UPRIGHT PIANOS TO RENT.
EVERY PIANO

To persons of musical taste, willing to trust their own ears, the Company submits its instruments, confident that in sonority, evenness, crisp action, sustaining power and durability, they are not anywhere excelled.
