## Street and Householders' Directory.

The street directory gives the location of each street and shows what other streets or places run from or across it. The house numbers are given in the left and right hand columns, with the names of heads of families and persons in business, in the order of location.

Houses without numbers are indicated by a — and the dash is also used opposite connecting streets to indicate whether such streets begin or end on the left or right side.

## Bulbs that bloom!

Gladioli have been developed and improved until now they are without exception the most useful and beautiful flower in the garden. The richness of coloring, diversity of shadings and profusion of bloom have been secured without sacrificing the sturdiness of the plant.

### Write for Information

**Let me help you to raise better Gladioli than any you have ever seen.**

For years I have devoted all my time and thought to improving the Gladiolus and raising better bulbs. It is both my business and my pleasure. I will gladly answer any questions in regard to the "Orchid of the Garden," its culture, the best varieties, etc. There will be no charge.
